RE: Docket No. 03-0681

Report

Dear Ms. Rolando:

On November 6, 2003, A&N Energy Systems, Inc. ("A&N") filed a verified petition with the Illinois Commerce Commission ("ICC") seeking a determination that a proposed electric generating facility fueled by landfill methane could become a qualified solid waste energy facility. The ICC order in Docket No. 03-0681 required A&N to file a report identifying any changes in ownership or operational structure.

You are hereby advised that A&N is now owned 51% by Shirine Kazemi and 49% by George Calvert. A&N has not begun operating an electric generating facility and has not caused any tax credits to Illinois Power Company / Ameren.

If you require any information, please contact me directly at (561) 714-6922.

Respectfully,

A handwritten signature in cursive script, appearing to read "Shirine Kazemi".

Shirine Kazemi
